Business Overview

Shakey's Pizza Asia Ventures Inc. (SPAVI) or PIZZA, is the market leader in both chained pizza full service restaurant and chained full service restaurant with 57.7% and 26.7% market share as cited by Euromonitor. As of June 30, 2018, it operated a total of 217 stores nationwide, a mix of Company-owned and franchise stores. PIZZA has consistently recorded double digit growth in system-wide sales in the past six years.

PIZZA has over 40 years of brand legacy in the Philippines. Originally an American brand established in 1954, Shakey's expanded into the Philippines in 1975, and has since become a household name to generations of Filipinos. PIZZA is a strong brand because of its unique products paired with excellent guest service. It is best known for its original thin crust pizza and iconic Chicken N' Mojos.

PIZZA owns the trademarks and licenses to operate the Shakey's brand in the Philippines, thus it has full control over the management and execution of Shakey's Philippine operations. Since PIZZA owns the brand, it generates additional revenue from franchising while not having to pay royalty fees for the use of the Shakey's name. PIZZA also owns the rights and trademarks in Asia (except Malaysia and Japan), China, Middle East, Australia and Oceania. This gives the company international expansion opportunities in the long-term. Through international franchisees, there are currently two Shakey's Pizza stores outside of the Philippines.

PIZZA is able to serve the A, B and upper C income classes through its various sales channels. PIZZA's dine-in segment caters mostly to families and friends who want an affordable upgrade

from the usual fast-food dining. At the same time, PIZZA appeals to the A and B classes through its delivery segment. With the shift of consumer trend towards convenience, PIZZA ensures that it continues to operate well-designed, comfortable, clean and guest-oriented stores, an efficient delivery system, and expand its online sales platform to align itself with current market and consumption trends.

PIZZA is spread nationwide through its five store formats. These formats differ in size ranging from 120 sqm to 400 sqm. Smaller stores tend to need lower capital investment. This allows PIZZA flexibility to serve the demand of a specific market, while still achieving the desired profitability.

PIZZA has an in-house commissary that supplies proprietary raw materials and other baked products to Shakey's stores. With this vertical integration strategy, product quality is preserved and controlled while also enabling for higher sales margins.

PIZZA operates a simple business model that is cash generative and requires low upfront costs due to the simplicity of its product. This enables high financial liquidity and attractive returns on investments.

In 2016, Century Pacific Group Inc. (CPGI) and the sovereign wealth fund of Singapore acquired majority ownership of PIZZA. CPGI is the parent company of Century Pacific Food Inc. (CNPF), the largest manufacturer of canned food in the Philippines.

Subsequently, on December 15, 2016, PIZZA successfully listed on the Main Board of the Philippine Stock Exchange (PSE) with a total of 1,531,321,053 common shares at ₱11.26 per share.

Approval and Authorization for the Issuance of the Unaudited Interim Condensed Consolidated Financial Statements

The unaudited interim condensed consolidated financial statements were approved and authorized for issuance by the Parent Company's Board of Directors (BOD) on August 6, 2018.

2. Basis of Preparation and Consolidation and Statement of Compliance

Basis of Preparation

The unaudited interim condensed consolidated financial statements have been prepared on a historical cost basis. The unaudited interim condensed consolidated financial statements are presented in Philippine peso, which is the Group's functional currency. All values are rounded off to the nearest million, except those otherwise indicated.

Statement of Compliance

The unaudited interim condensed consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis of Consolidation

The unaudited interim condensed consolidated financial statements comprise the unaudited interim condensed financial statements of the Parent Company and its wholly-owned subsidiaries and are prepared for the same reporting year as the Parent Company, using consistent accounting policies.

Control is achieved when the Parent Company is exposed, or has rights, to variable returns from its involvement with the investee and when it has the ability to affect those returns through its power over the investee. Specifically, the Parent Company controls an investee if and only if the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the six elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the unaudited interim condensed consolidated statement of comprehensive income from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Upon consolidation, all intragroup balances, transactions, income and expenses and profits and losses resulting from intragroup transactions are eliminated in full.

Changes in the controlling ownership (i.e., acquisition of non-controlling interest or partial disposal of interest over a subsidiary) that do not result in a loss of control are accounted for as an equity transaction.

The unaudited interim condensed consolidated financial statements include the accounts of the Parent Company and the following subsidiaries:

Long-term facility loan

On June 8, 2016, the Group entered into an Omnibus Loan and Security Agreement (OLSA) with BDO Unibank, Inc. (the Lender) and SAFHI. The lender provided a term loan facility in the principal amount of ₱5,000.0 million for the purpose of refinancing the bridge loan of SAFHI. SAFHI shall in turn pledge its 100% ownership shares of all of its subsidiaries.

The breakdown of the loan is as follows:

	June 30, 2018	December 31, 2017
Principal	₱3,925,000,000	₱3,950,000,000
Less unamortized debt issue costs	16,778,053	16,758,594
	3,908,221,947	3,933,241,406
Less current portion of long-term loan	48,291,305	48,291,305
Noncurrent portion	₱3,859,930,642	₱3,884,950,101

The loan is payable within 10 years to commence on the 12th month following the availment date. Payments shall be made in 18 consecutive semi-annual installments of ₱25.0 million and a final payment of ₱4,550.0 million.

The loan's interest is to be fixed at the higher of 5-year PDST-R2 plus a spread of 0.75% or 4.5% floor rate for the first 5 years, to be repriced at the last 5 years. Management has assessed that the interest rate floor on the loan is an embedded derivative which is not for bifurcation since the market rate approximates the floor rate at the transaction date.

The loan facility also contains a prepayment provision which allows the Group to make optional prepayment in the amount calculated by the lender comprising (i) the outstanding principal amount of the Loan to be prepaid, and (ii) any accrued interest on the principal amount of the Loan being prepaid computed as of the date of prepayment. The prepayment option was assessed as closely related to the loan and thus, was not bifurcated.

Interest expense amounting to ₱90.8 million and ₱84.9 million was recognized for the six months ended June 30, 2018 and 2017, respectively.

On December 22, 2016, the Group notified BDO of its intention to prepay the loan amounting to ₱1,000.0 million. The exercise of the prepayment option resulted in the revision of estimated future payments and change in the carrying amount of the financial liability as at December 31, 2016. On January 3, 2017, the Group exercised its option to prepay. Break-funding costs related to the exercise of the prepayment option amounted to ₱21.4 million.

So long as any portion of the loan is outstanding and until payment in full of all amounts payable by the Group under the loan documents are made, the Group covenants and agrees that, unless the

Lender shall otherwise consent in writing, it shall among others comply with the following affirmative covenants:

- a. Ensure that at all times its obligations will constitute its secured, direct, unconditional and unsubordinated obligations, and any of its residual obligation not satisfied out of the proceeds of the Collateral shall rank and will rank at all times at least pari passu in priority of payment and in all other respects with all its unsecured obligations, save for such obligations in respect of which a statutory preference is established solely by operation of law.
- b. The net proceeds from the loan shall be used for the purpose of refinancing the bridge loan.
- c. Financial covenant during the term of the Term Loan:
 - i. its Debt Service Coverage Ratio is at least 1.2x. Debt Service Coverage Ratio is as of the date of determination, the ratio of EBITDA less regular dividends and advances to shareholders over Debt Service. For purposes hereof, "EBITDA" means operating profit before interest, taxes, depreciation and amortization, each item determined in accordance with PFRS, and the term "Debt Service" means the aggregate amount of the succeeding year's principal amortization for the Loan, interest, fees and other financial charges made or due in respect thereof payable by the Borrower, provided that one (1) year prior to the maturity of the Loan, "Debt Service Coverage Ratio" shall mean the ratio of sum of the beginning cash balance and EBITDA less regular dividends and advances to shareholders over Debt Service;
 - ii. its Debt to Equity Ratio does not exceed 5.0x within the first two years from the Borrowing under the Term Loan and 4.0x thereafter.

The foregoing financial covenant shall be tested every six months based on annual audited or unaudited semi-annual consolidated financial statements. The Company obtained a letter from the lender dated June 30, 2016 waiving the DSCR and Debt to Equity Ratio requirements for the period ended June 30, 2016 and granted a twelve-month grace period within which the Group can rectify the breach and during which the lender cannot demand immediate repayment. Furthermore, on January 27, 2017, the OLSA was amended to include June 30, 2017 as the commencement date for the testing for the financial covenant ratios.

- d. Within the period required, open and establish the Debt Service Reserve Account (DSRA); and ensure that the funds deposited in the DSRA is at all times maintained in accordance with the agreement.
- e. Prior to the assignment or transfer of any trade names, copyrights, trademarks, patents and other intellectual property rights or licenses currently held by the Group or any wholly-owned subsidiary of the Group, the Group shall pledge in favor of the Lender, under the terms and conditions of the Pledge under the Omnibus loan and security Agreement, all the outstanding shares of the Group in such wholly-owned subsidiary.

Liquidity Risk. Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet or settle its obligations at a reasonable price.

The Group’s objective is to maintain a balance between continuity of funding and flexibility through the use of advances to related parties. The Group maintains sufficient cash to finance its operations.

The Group manages its liquidity risk by maintaining strength and quality on financial position where debt-to-equity ratio is at a manageable level. The Group also maintains a financial strategy that the scheduled debts are within the Group’s ability to generate cash from its business operations.

The tables below summarize the maturity profile of the Group’s financial liabilities based on contractual undiscounted payments. The tables also analyze the maturity profile of the Group’s financial assets in order to provide a complete view of the Group’s contractual commitments and liquidity.
